INCH WALL PROFILE

**18 GA**

GALVANIZED STEEL

A wall-mount galvanized drain pan with a sloped base that directs collected leakage toward the drain end beneath a tankless water heater.

## Technical specifications

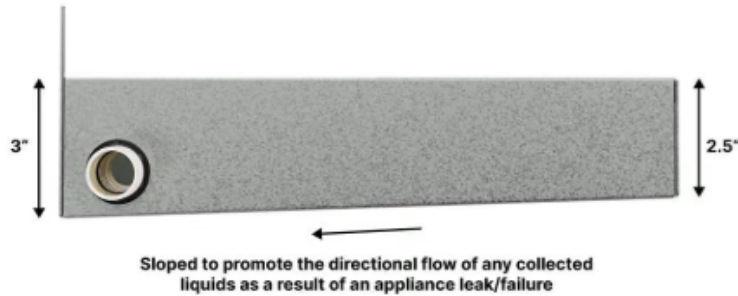

|                     |                                           |
|---------------------|-------------------------------------------|
| Pan footprint       | 20 in wide × 13 in deep                   |
| Wall-height profile | 2.5 in at one end; 3 in at the drain end  |
| Material / finish   | Galvanized steel / mill finish            |
| Thickness           | 18 gauge / 0.05 in                        |
| Mounting            | Rear wall-mount flange with slotted holes |
| Drain opening       | 1.32 in diameter                          |
| Drain fitting       | NPT fitting included                      |

### Application note

Both wall-height values describe the approved sloped profile. Mount below the heater with the drain end unobstructed. No additional slope angle or fitting thread size is specified.

## Tankless Water Heater 20" Sloped Wall-Mount Drain Pan - Galvanized

DP-20-GA-C2 | 20 × 13 in footprint with 2.5 / 3 in wall profile; galvanized steel, 18 gauge / 0.05 in.

Dimensional illustration is not to scale. Wall profile: 3 in at the drain end and 2.5 in at the opposite end.
